Arrow T59 Insulated Cable Staples, Black, 5/16 inch x 1/4 inch, 300 Count

SKU: 591188BL

- Plastic insulator helps prevent cable damage
- Corrosion-resistant steel supports outdoor installs
- Secures CAT5/6, coax, phone, and data cable

PRODUCT DETAILS

The Arrow T59 Insulated Cable Staples, Black, 5/16 inch x 1/4 inch, 300 Count are insulated fasteners for CAT5/6, coaxial cable, phone lines, data cable, and other communication wiring. A molded plastic insulator cushions the cable jacket while the staple is driven, helping installers create cleaner data and communication runs without crushing signal wire under a bare metal crown. The listed staple profile is 5/16 inch x 1/4 inch, the insulator color is black, and the package contains 300 staples. These staples are designed exclusively for the Arrow T59 Professional insulated cable staple gun. The corrosion-resistant steel fastener is suitable for outdoor applications.

SPECIFICATIONS

- CABLE APPLICATIONS: Designed for CAT5/6, coaxial cable, phone lines, data cable, and other communication wiring in data, audio-video, telephone, and security installations.
- CABLE PROTECTION: Molded plastic insulator cushions the jacket and helps prevent wire damage during stapling.
- SIZE AND COMPATIBILITY: Uses the listed 5/16 inch x 1/4 inch profile exclusively with the Arrow T59 Professional cable staple gun.
- CONSTRUCTION: Corrosion-resistant steel supports outdoor applications with a black plastic insulator.
- PACK CONTENTS: Includes 300 staples for organized data and communication cable installation.

Q: Which cables can these T59 staples secure?
A: They are designed for CAT5/6, coaxial cable, phone lines, data cable, and other communication wiring. The molded plastic insulator helps protect the cable jacket during fastening.
Q: What size and tool are compatible?
A: Each staple measures 5/16 inch x 1/4 inch and is designed exclusively for the Arrow T59 Professional insulated cable staple gun used for data and communication cable installation.
Q: What material, color, and quantity are included?
A: The package contains 300 staples with a black plastic insulator and corrosion-resistant steel fastener, making the configuration suitable for data, communication, and outdoor cable installations, including CAT5/6 and coax.
