Wilson Bohannan Monarch DX Beast Box Security Keys

DX Beast Box Security Keys are used to unlock box enclosures used in multi-dwelling units to gain access to CATV distribution equipment. Multi-Dwelling Units (MDU) box enclosures provide suitable mounting facilities and security for CATV distribution equipment such as taps, splitters, and filters. MDU boxes, commonly referred to as “beast boxes” require a special key and specific key pattern to be unlocked by the technician.

Features:

- Used to unlock MDU enclosure boxes
- Made of non-corrosive brass

Available Patterns:

- DX-7
