

Arrow T59 Heavy Duty Wire and Cable Staple Gun, Insulated Staples

SKU: T59

PRODUCT DETAILS

The Arrow T59 Insulated Wire and Cable Staple Gun is designed for clean data and communication-cable installations. Insulated staples cushion data and communication cable to help prevent crushing. Precision nose supports accurate fastening along baseboards and framing. Chromed steel housing and hardened working parts support repeated use. Compatible insulated staples cushion CAT5/6, coaxial, and phone lines to help prevent crushing, while the precision nose supports accurate placement along baseboards and framing. Uses Arrow T59 insulated staples in approved clear, black, and stainless-steel options. For dependable operation, load only the compatible Arrow fastener type and size specified for this model. Confirm the staple size and cable application before loading the tool.
