VGC™ 6-Outlet Surge Protector - 3 ft. Cord

Applications

The Vericom 6-outlet basic surge protector is ideal for use in the protection of computers, printers, video players, stereo systems, cell phone chargers, small appliances, and other home electronics from damage caused by lightning strikes or other power surges.

Description / Specifications

This surge protector includes 6 surge protected horizontal outlets, a 3 foot heavy-duty grounded power cord, and a lighted On/Off switch with integrated 15 Amp circuit breaker. This surge protector is designed to protect many types of electronic devices but is intended for indoor use only.

Ordering Information

Description	6-Outlet Basic Surge Protector
Cord Length	Item Number
3 ft.	PWR06-04029

Features & Benefits

- 6 surge protected horizontal outlets to extend power supply options
- 150 joules of surge suppression to protect electronics
- 3 ft. heavy-duty grounded power cord for extended reach
- Lighted On/Off switch with integrated 15A circuit breaker
- Slim profile for discrete installations
- Includes recessed screw cavities for wall mount application

Standards Compliance

- UL Listed
- RoHS Compliant

Construction

Housing Material: ABS (flame resistant)
Product Dimensions (not incl. cord): 9.65” x 1.75” x 1.5”
Product Weight: 0.67 lbs.
Outlet Type: NEMA 5-15R
Outlet Quantity: 6
Cord Specs: 14 AWG 3-wire grounded SJT
Cord Length: 3 foot
Plug Type: NEMA 5-15P
Plug Style: Straight
Mounting: Four mounting holes on bottom of housing

Electrical

Input / Output Voltage: 120 Volts
Input / Output Frequency: 60 Hz
Maximum Input Current: 15 Amps
Maximum Output: 1875 Watts
Circuit Breaker / Overload Protection: 15 Amps
Surge Suppression: 150 Joules
Protection Mode: L-N
Responce Time: 1 Nanosecond
Clamping Voltage: 800 Volts
