

Energizer Industrial C Batteries, C Cell Energizer Industrial Alkaline Batteries

ENR EN93.B1 INDDUSTRIAL ALK C DISP PK

Power your industrial and professional devices with Energizer Industrial C Alkaline Batteries. Wherever you work, their proven performance keeps your electronics up for the job: construction sites, facility maintenance, medical centers, business offices, classrooms, and more. Plus, these industrial C batteries are made to last, not to leak, because your productivity relies on work site devices that keep working. Also, they hold their power with up to 10 years of shelf life, which means you'll have batteries on hand. So, when work depends on digital scales, motion sensors, multimeters, and all kinds of other everyday gear, you can count on the power and protection of Energizer Industrial C Alkaline Batteries.

Features & Benefits

- Energizer Industrial C Alkaline Batteries keeps you stocked up with power
- Safely power your everyday professional devices with batteries made to last, not to leak
- Keep equipment running in the field, the office, the classroom, and every work site in between with dependable alkaline battery power
- Get all your devices going with C cell batteries that hold power for up to 10 years in storage
- Keep work devices and workdays running smoothly with reliable, long-lasting power for precision electronics at construction sites and commercial spaces

Country of Origin: US | Material Number: E000192104 | Segment: Price Value Batteries | System: Imperial | Commodity Code: 8506100069, 8506100090

WARNING: Do not install backwards, charge, put in fire or mix with used or other battery types – may explode or leak causing injury.

Replace all batteries at the same time.

AVERTISSEMENT : N'installez pas la pile à l'envers, ne la chargez pas, ne la jetez pas au feu ou ne la mélangez pas avec des piles usées ou d'autres types de piles – elle risque d'exploser ou de fuir, entraînant des blessures.

Remplacez toutes les piles en même temps.

ADVERTENCIA: No las instale al revés, las cargue, las arroje al fuego ni las mezcle con pilas usadas o con otros tipos de pilas – pueden explotar o experimentar fugas causando lesiones. **Reemplace todas las pilas a la vez.**
